On the occasion of Society Interiors' 19th anniversary, we share with you heartfelt messages and thoughts from our well-wishers from the design fraternity.

**MONICA & HARDESH CHAWLA,
ARCHITECTS & OWNERS,
ESSENTIA ENVIRONMENTS**

Society Interiors is one of the leading interior design magazines in India, that offers the readers everything they want to know about the Indian interiors market. We have been associated with the magazine for the past seven months and overall it has been a beautiful journey. It's a great magazine to work with and we appreciate all their support.

**HUSNA RAHAMAN, PRINCIPAL ARCHITECT AND
INTERIOR DESIGNER, FULCRUM STUDIO**

Society Interiors is a magazine that is insightful and glamorous. It looks at the artist and the designer with a renewed perspective, making the stories flavourful and thoughtful. My association with the magazine is long-standing and I am always pleased with the

creative outcome of the endeavor. It is easy to fall into the regularity and normalcy of just getting a story but at Society Interiors, it is about getting a story to sing. My last experience with them touched an often overlooked aspect of my personality—the poet. The entire story was woven deftly around this premise and I thought it was a wonderful element that they uncovered. I hope they have a spectacular journey ahead and continue to add the glitz and substance.

AR ANIL RANKA, PUNE

Society Interiors has been one of the most leading and preferred magazine for interior designers and architects in India. The topics covered are very crisp and informative.

The editorial team takes utmost care to cover all categories of both architecture and interiors. We in fact look forward for the subscription of the month so that we would get to see

something new and innovative in the magazine.

Our heartfelt wishes to the entire team of Society Interiors for the successful completion of 19 years and they sure have many more to go.
